

# 65 and older

**50 to  
64**

**40 to  
49**

**Notice: The rule that “Once a woman is a CDC is always a CDC” is not longer valid. Clients have to qualify every year.**

**35 to  
39**

With abnormalities  
suspicious for breast and/or  
cervical cancer

Meets the income guidelines?

Yes

**CDC:** Receives a CBE, pelvic, Pap and a diagnostic mammogram voucher and the appropriate CDC paid referral(s). A client will be CDC specifically for the year the abnormality has been found. The following year(s), if no abnormality is present client does not qualify until she turns 40. Clients have to re-qualify every year

No

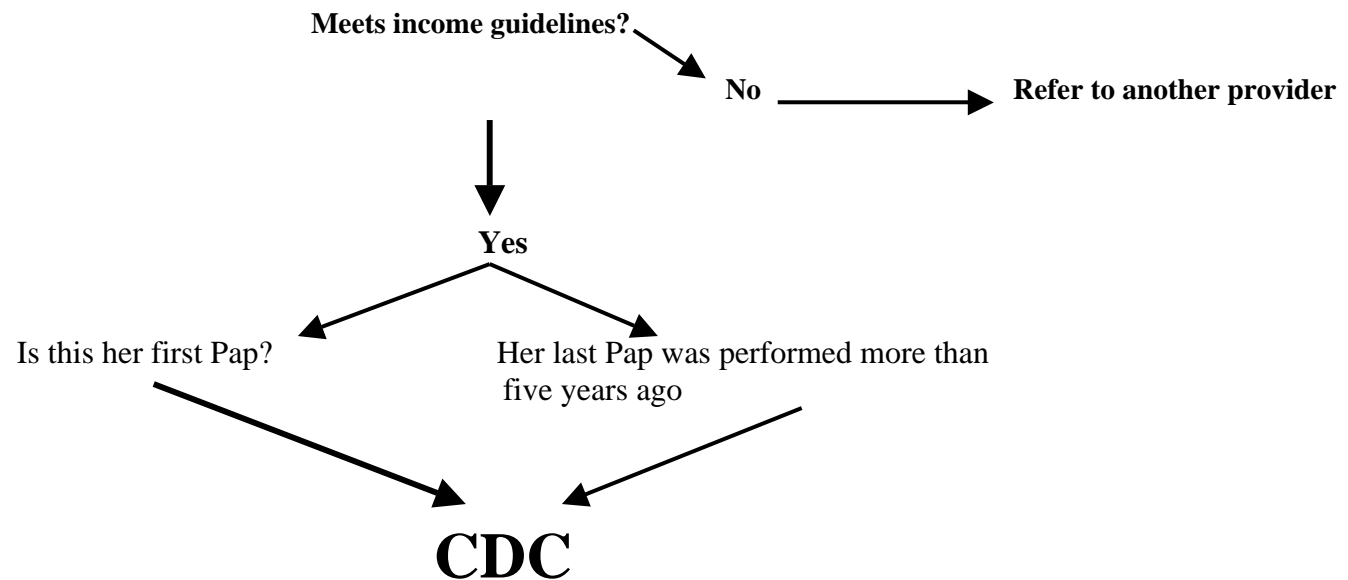

**Refer them to their own healthcare providers**

**Notice: The rule that “Once a woman is a CDC is always a CDC” is not longer valid. Clients have to qualify every year.**

# Pap Smears only

## Women 18-49 \*

\* Only applicable to Salt Lake Valley and Utah county LHDs

Note: Some women from the ages 40-49 will be entered as UCCP for her clinical breast exam. However, the criteria of **never and rarely screened** for Pap smears **ONLY** will make them CDC (they will receive CDC vouchers just as any CDC woman). These women will remain CDC for three consecutive years (providing they have normal Pap smears) and return as a UCCP.

**Notes:**

Women who had an abnormal Pap result and need to come back for a repeated Pap smear in 6 months for a liquid-based Pap or conventional Pap. They will receive a letter that they need to present at the front desk at the time of their appointment. No letter, no reimbursement, they will be responsible for the cost of their visit. This information has been clearly stated in the letter.
